PROFESSIONAL SUMMARY

Software Engineer and Full Stack .NET Developer with 1+ year of professional .NET experience building and maintaining enterprise applications for insurance and reinsurance. Strong in C#, .NET Framework, ASP.NET Web Forms, SQL Server, T-SQL, WCF/SOAP, SSRS/RDLC and IIS, with hands-on work across backend services, database design, transactional business logic, reporting, debugging, QA and deployments. Experience collaborating remotely with Git/GitHub, plus modern .NET project work using .NET 10 and Blazor WebAssembly.

TECHNICAL SKILLS

.NET & Backend: C#, .NET, .NET 10, .NET Framework, ASP.NET, ASP.NET Web Forms, Blazor WebAssembly, Razor Components, WCF, SOAP, ADO.NET

Data & Reporting: SQL Server, T-SQL, stored procedures, transactions, relational database design, SSRS, RDL/RDLC, XML, JSON

Web & Delivery: JavaScript, HTML5, CSS3, IIS, Git, GitHub, GitHub Actions, GitHub Pages, TFS, Visual Studio, SSDT

Practices: Debugging, software testing, DEV/QA deployments, Scrum, remote collaboration

PROFESSIONAL EXPERIENCE

Full Stack .NET Developer | Software Avanzado S.C. | Jun 2025 - Present

Remote | Mexico

- Develop and maintain multi-tier enterprise applications for insurance and reinsurance operations using C#, .NET Framework, ASP.NET Web Forms, JavaScript, WCF/SOAP, SQL Server and T-SQL.
- Design and implement business logic across application, service and database layers, including stored procedures, validations, transactions, reporting and document-generation workflows.
- Diagnose cross-layer defects and optimize SQL logic while preserving transactional data integrity and minimizing regression risk.
- Support DEV and QA environments, IIS deployments and application configuration, using TFS for source control and ongoing maintenance of business-critical modules.

Software Developer Intern | CR-Applications LLC / QNode | Mar 2024 - Aug 2024

Remote | Dallas, TX-based startup

- Contributed to the design and development of an iOS mobile application built with Flutter and Dart, using Firebase and participating in application architecture, data modeling and UI/UX implementation.
- Collaborated remotely using Git, GitHub, code reviews and Figma while translating requirements and prototypes into functional application components.

Software Developer | develop talent & technology | May 2024 - Oct 2024

Remote | Mexico

- Contributed to application development, debugging, testing, technical documentation and solution maintenance across different stages of the software development lifecycle.

SELECTED PROJECTS

Enterprise Billing & Electronic Invoicing Platform - Designed and developed core components with C#, .NET Framework, ASP.NET Web Forms, WCF/SOAP, SQL Server and T-SQL, including CFDI 4.0 XML, PDF and QR workflows.

Reinsurance Account Statement & Reporting Platform - Developed financial workflows for historical balances, payment movements, periodic processing, preview/definitive states, persistence and PDF/Excel reporting.

Enterprise Reinsurance Policy & Transaction Processing - Developed and maintained policy capture, validation, authorization and financial transaction workflows with .NET Framework, WCF/SOAP, SQL Server and T-SQL.

Personal Developer Portfolio - Built with .NET 10, Blazor WebAssembly and Razor Components, with responsive UI, SEO/social metadata and GitHub Actions deployment to GitHub Pages.

EDUCATION

Bachelor of Engineering - Software Development and Management | Sep 2024 - Apr 2026

Universidad Tecnológica de Xicotepec de Juárez | Puebla, Mexico

Focus: Software architecture, backend/full-stack development, databases and software project management.

Associate's Degree - Multiplatform Software Development | Sep 2022 - Aug 2024

Universidad Tecnológica de Xicotepec de Juárez | Puebla, Mexico

CERTIFICATIONS & PROFESSIONAL LEARNING

In Progress: Microsoft Full-Stack Developer Professional Certificate (Microsoft/Coursera) | Microsoft Azure Certification Preparation

Certifications: Foundational C# with Microsoft (freeCodeCamp/Microsoft) | C# Programmer (Fundación Carlos Slim) | Scrum

Foundation Professional Certification (CertiProf) | Remote Work Professional Certification (CertiProf)

Languages: Spanish - Native/Bilingual | English - CEFR C1 / Full Professional Proficiency (Oxford Online Placement Test)
