

JOSE ALEJANDRO BRIONES ARROYO

Software Engineer | Full Stack .NET Developer | Backend-Focused

Puebla, Mexico | +52 775 127 2647 | j.alejandro.briones.a22@gmail.com | [linkedin.com/in/josealejandrobrionesarroyo](https://www.linkedin.com/in/josealejandrobrionesarroyo) | github.com/alejandro-briones

PROFESSIONAL SUMMARY

Software Engineer and Full Stack .NET Developer with 1+ year of professional experience building and evolving enterprise applications, specializing in backend development, C#, .NET Framework and SQL Server. Experienced across application, service, database, reporting and deployment layers in insurance and reinsurance systems, with hands-on responsibility for complex business rules, transactional data integrity, debugging and remote collaboration.

TECHNICAL SKILLS

Core .NET: C#, .NET Framework, ASP.NET Web Forms, Windows Communication Foundation (WCF), SOAP

Data & Reporting: Microsoft SQL Server, T-SQL, stored procedures, transactions, relational data modeling, SSRS, RDLC

Web & Integration: JavaScript, HTML/CSS, XML, service/API integration, PDF and QR document workflows

Tools & Delivery: Visual Studio, IIS, TFS, Git, GitHub, debugging, software testing, DEV/QA deployments, Scrum

Domain: Insurance, reinsurance, financial transactions, account statements and electronic invoicing (CFDI 4.0)

PROFESSIONAL EXPERIENCE

Full Stack .NET Developer | Systems Specialist | Software Avanzado S.C.

Jul 2025 - Present

Mexico

- Develop and maintain multi-tier enterprise applications for the insurance and reinsurance sector using C#, .NET Framework, ASP.NET Web Forms, JavaScript, WCF/SOAP, SQL Server and T-SQL.
- Translate complex business rules into reliable application, service and database solutions, including stored procedures, validations, transactions, reporting and document-generation workflows.
- Diagnose cross-layer defects, optimize SQL logic and implement targeted enhancements while preserving transactional data integrity and minimizing regression risk.
- Support DEV and QA environments, IIS/application configuration, deployments and continuous evolution of business-critical modules in response to incidents and new requirements.

Software Developer | CR-Applications LLC

Jun 2024 - Jul 2024

Remote | Dallas, TX-based startup

- Developed Flutter/Dart iOS functionality for DogApp/QNode, integrating Firebase and contributing to system architecture, logical data modeling and a product distributed through the Apple App Store.
- Collaborated remotely through GitHub, code reviews, Figma, daily stand-ups and sprint updates, iterating on features from product requirements and technical feedback.

Software Development Roles | develop talent & technology

May 2024 - Sep 2024

Remote | Mexico

- Contributed as Junior Software Developer, Software Lead for QuarryApp, Technical Instructor (Flutter/Firebase) and Software Development Intern, covering implementation, debugging/testing, Git workflows, technical coordination and mentoring.

SELECTED .NET PROJECTS

Enterprise Billing & Electronic Invoicing Platform - Delivered an end-to-end .NET Framework/SQL Server solution integrating external CFDI 4.0 stamping with XML, PDF and QR workflows across database, service, application and reporting layers.

Reinsurance Account Statement & Reporting Platform - Implemented T-SQL and SSRS/RDLC workflows for complex financial rules, previous balances, contracts, reporting periods and account statements.

Enterprise Reinsurance Policy & Transaction Processing Platform - Develop and enhance ASP.NET Web Forms/C#/WCF/SQL Server modules for policy capture, authorization, financial transactions, large-volume record processing and data-integrity controls.

EDUCATION

Bachelor of Engineering - Software Development and Management

Sep 2024 - Apr 2026

Universidad Tecnológica de Xicotepec de Juárez, Puebla, Mexico

Focus: software architecture, advanced programming, backend/full-stack development, databases and technical leadership.

Associate's Degree - Multiplatform Software Development

Sep 2022 - Aug 2024

Universidad Tecnológica de Xicotepec de Juárez, Puebla, Mexico

CERTIFICATIONS & LANGUAGES

Certifications: Foundational C# with Microsoft (freeCodeCamp/Microsoft) | C# Programmer (Fundación Carlos Slim) | Scrum Foundation Professional Certification (CertiProf) | Remote Work Professional Certification (CertiProf)
